

Microwave therapy belongs to the family of thermotherapies. By means of electro-magnetic waves, heat is conveyed deep within tissues. Therapeutic effects of radartherapy are: muscular heating, analgesic and throphic effect. Microwave therapy is indicated in case of muscular contractures, osteoarthritis, post-traumatic pain, tendinitis, etc.

## THERAPEUTIC ACTIONS

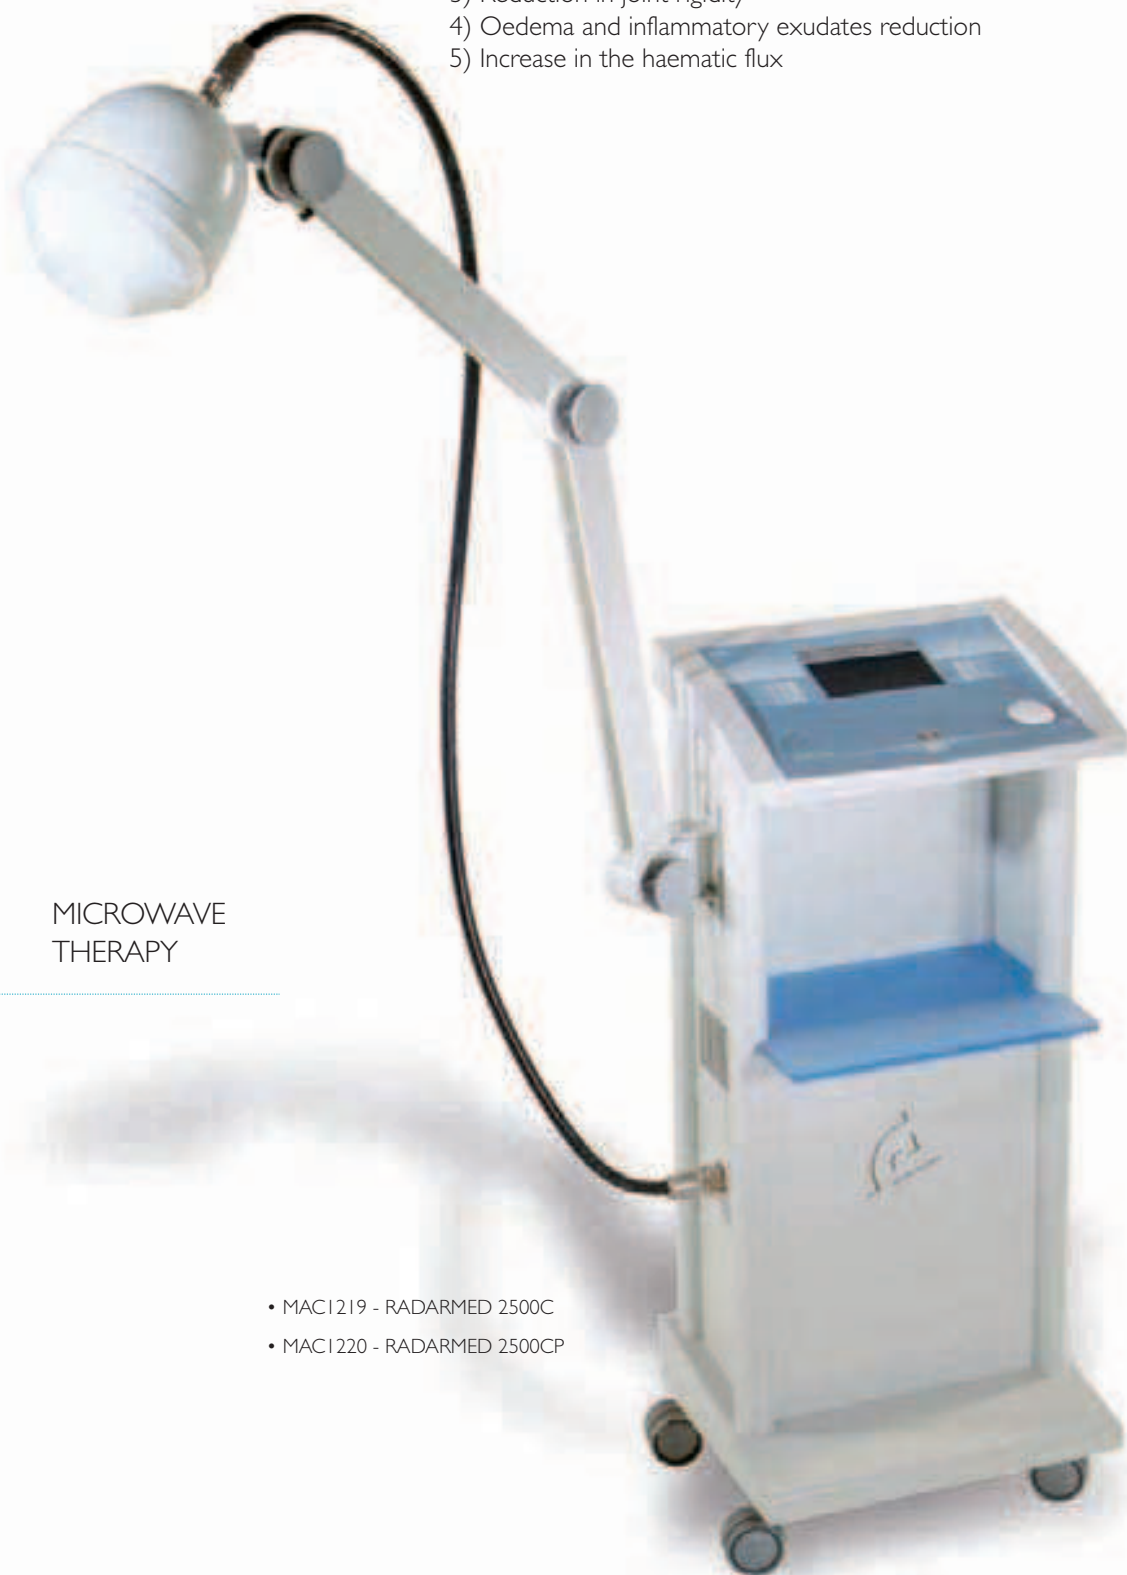

---

- 1) Pain reduction
- 2) Improvement of collagen extendability
- 3) Reduction in joint rigidity
- 4) Oedema and inflammatory exudates reduction
- 5) Increase in the haematic flux

## MICROWAVE THERAPY

---

- MAC1219 - RADARMED 2500C
- MAC1220 - RADARMED 2500CP

## AVAILABLE MODELS

---

### ■ MAC 1219 - RADARMED 2500C

Microwave therapy equipment functioning only with continuous mode

#### TECHNICAL FEATURES

---

- Peak power: 250W
- Stored protocols: 100
- Available protocols in user memory: 100
- Smart Card
- Alarm in case of over-heating
- Low-noise fans

### ■ MAC 1220 - RADARMED 2500 CP

Microwave therapy equipment functioning with continuous and pulsed mode

#### TECHNICAL FEATURES

---

- Peak power in continuous mode: 250 W
- Peak power in pulsed mode: 1600 W
- Stored protocols: 100
- Available protocols in user memory: 100
- Smart Card
- Alarm in case of over-heating
- Low-noise fans

#### STANDARD ACCESSORIES

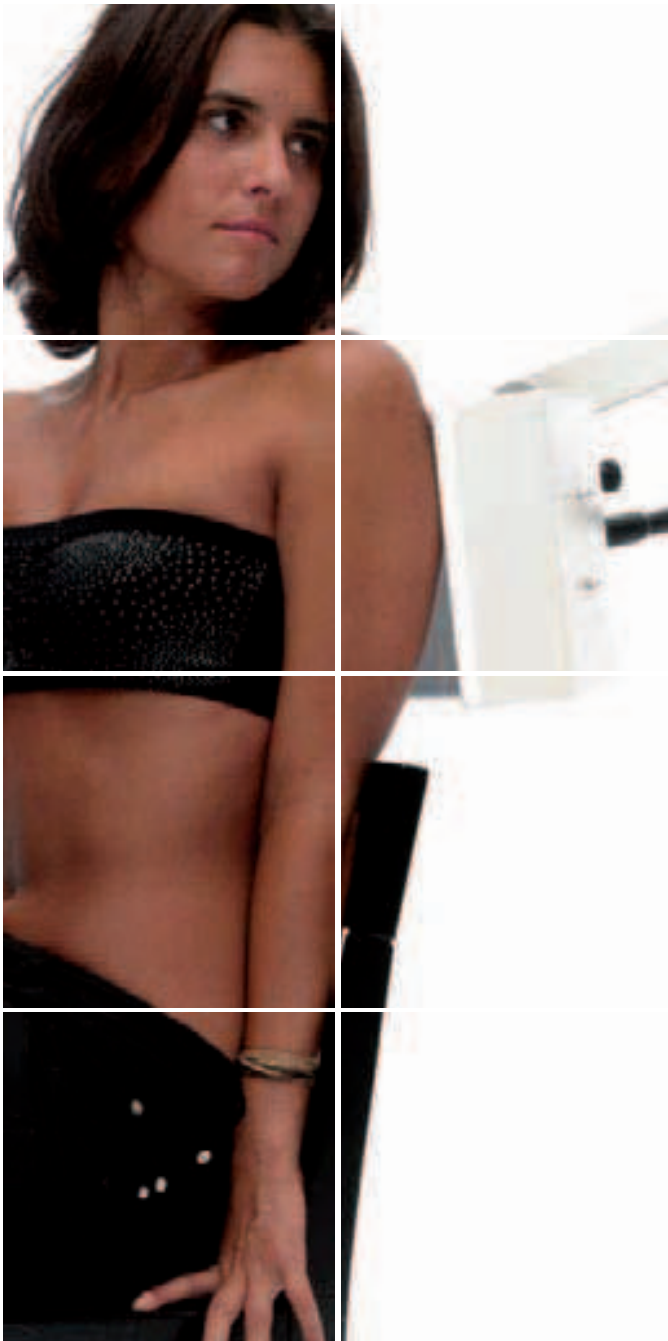

#### RADARMED

---

Power cable	
User manual	
Fuses	2 x 6,3 A-T
Orthostatic arm for Radar	
Cable for frequency output	
Circular antenna AC (acc191)	

# RADARMED

MICROWAVE  
THERAPY

## RADARMED - OPTIONAL ACCESSORIES

---

### ORTHOSTATIC ARM

- ACC620

### HIGH FREQUENCY RADAR CABLE

- ACC616

### VOCAL KIT

- ACC501

### CIRCULAR ANTENNA

- ACC191 - AC

### THREE DIMENSIONAL ANTENNA

- ACC235 - A3D

### RECTANGULAR ANTENNA

- ACC234 - AR

### KIT OF 10 PATIENT SMART CARD

- ACC606

### KIT FOR SOFTWARE UPDATING

- ACC607
