

GLACIER PACKS

Quarter-size shown.

Whitehall's Glacier Packs are durable and flexible. Constructed with a 14 mil PVC cover, the glacier packs contain a flexible filler that never freezes, allowing them to conform to the treatment area. Each reusable pack is double seamed for added durability and provides up to 30 minutes of cold therapy treatment.

Oversized (13"x 18.5")

Standard (11"x 14")

Half-size (7"x 11")

Quarter-size (6"x7")

Throat (4"x10.5")

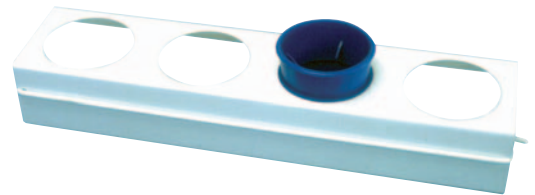

Cervical (23" long)

GLACIER-FREEZE

Whitehall's Glacier-Freeze provides convenient and reliable storage for all Glacier Packs.

Glacier-Freeze comes with two stainless steel racks designed to hold 1 cervical and 6 standard Glacier Packs. Temperature is adjustable on the easy-to-read thermometer. Oversized packs can be easily stored on the bottom shelf. The Glacier-Freeze comes with 12 standard Glacier Packs.

A special Enviro-Glazed® stainless steel holder for ice cups is located on the door.
